

# Benchmark Systems Practice Management

## Practice Management.

We think Practice Management solutions should help you practice medicine – not just automate billing and claims management. That's why we've designed Benchmark PM to streamline workflows across your practice improving front and back office operations to reduce errors, improve patient care and boost revenue.

We also believe that you shouldn't alter your practice to incorporate new technology. Built on the strength of over 40 years of expertise helping healthcare providers improve profitability and time management, Benchmark PM works to exceed your practice demands. Utilizing web-based systems and automated technology, Benchmark Systems Practice Management is flexible, easy to use and affordable.

## Let Us Help You.

Your practice will stay ahead of the ever-evolving challenges facing healthcare providers today. Verify patient eligibility, submit insurance claims and check status in real-time to avoid collections issues before they occur. Streamline workflow with automated task management, paperless reporting and customizable forms, statement labels and screen templates.

While superior patient care is at the heart of your practice, proper accounting and cash flow are essential to its survival. Benchmark PM's open-item accounting reduces A/R days, substantiates past claims, provides patients with detailed account statements and helps improve the level of care you provide. You'll experience a new level of financial visibility, operational efficiency and statistical management reporting giving your practice more freedom to focus on patients.

## Why Rely on Benchmark Practice Management?

### Streamline Operations

As a complete Practice Management solution Benchmark Systems streamlines front and back-office operations. Easy-to-use and accessible by everyone in your practice, the system lets you allocate critical resources, simplify scheduling, collect comprehensive data and securely store patient records on or off-site. Your staff can quickly minimize manual tasks and reduce paperwork headaches by automating workflows and increasing operational efficiencies.

### Simplify Accounting

Easily manage finances of your practice and boost your bottom line with Benchmark Systems. Benchmark PM has built-in tools to help you swiftly manage transactions, submit insurance claims, post charges and automate billing tasks. Real-time unpaid claims follow-up shortens A/R cycles and built-in audit trails detail patient communications. Efficient collection processes help clinics receive payments faster. Plus, our Billing Module averages a 98 percent first-pass claims acceptance.

### Drive Productivity

Benchmark PM puts the information you and your staff need directly at your fingertips, helps to prioritize key activities, improve communication and free staff from manual processes that slow your practice. Code correctly and accurately. Scan and store insurance information and patient authorizations online. Date and time stamped messages for a fully featured reporting module.

## Deliver True Flexibility

Unlike most Practice Management Systems, Benchmark PM adjusts to meet your practice needs and personal preferences. Customizable to your unique practice, specialty and management style.

## Receive End-to-End Support & Training

When it comes to helping you achieve success, Benchmark Systems doesn't stop at delivering advanced technology. We provide complete end-to-end implementation services and offer a variety of support and training options including on-site and virtual training to ensure that your entire staff has the know-how and confidence to fully utilize your Benchmark PM System.

## Experience a Legacy of Success

As a certified vendor with over 40 years of experience Benchmark Systems has the experience and expertise to help you significantly lower expenses while improving patient care with our flexible, advanced technology and superior customer service. Contact us to learn more and join the thousands of physicians in over 40 specialties who use Benchmark Systems integrated solutions, including Benchmark PM System, every day.

## Why Benchmark Systems for Practice Management:

“

Benchmark Systems has provided a PM system for us for years, and we have been very pleased. If we were not, we would have something else - it's that simple, why fix it if nothing is broken."

Medical Associates of Southwest, VA

”
